We received the closure report and certifications for the hazardous waste management unit known as the former interim status container storage area located at the referenced facility. Based upon our review of the certification report, we believe that closure has been completed in accordance with the approved closure plan. Therefore, in accordance with Title 40 Code of Federal Regulations (CFR) §§ 265.143(h) and 265.147(e), you are no longer required to maintain closure cost assurance and liability coverage for this facility, as required by Subpart H of 40 CFR Part 265.

Please note that any releases of hazardous wastes to the environment from this facility may be subject to EPA's corrective action authorities.
